Projects

2024	BookNest: A Web-Enabled Machine Learning Framework for Personalized Book Recommendations <ul style="list-style-type: none">Implemented sentiment analysis using machine learning techniques like Naïve Bayes and Support Vector Machine.Utilized natural language processing methods to analyze and classify sentiment in product reviews.Explored and compared different classifiers to predict the polarity (positive or negative) of sentences in a product reviews dataset.
2024	Animated Carousel using ReactJS <ul style="list-style-type: none">The Animated Carousel using React.js project involves creating a dynamic and visually appealing carousel component that allows users to navigate through a series of images or content with smooth animations.The outcome is an interactive and engaging UI element suitable for enhancing the user experience in web applications.
2024	Light and dark themed Calculator <ul style="list-style-type: none">The Light and Dark Themed Calculator using React.js project involves building a functional calculator with switchable light and dark themes, enhancing visual comfort for users.The outcome is an aesthetically pleasing, user-friendly calculator with theme customization options for better user experience.

Technical Skills

CS Core — Proficient

Data Structures and Algorithms, Database Management System , Object Oriented Programming

Web Programming Skills — Competent

- HTML
- CSS
- SQL

Programming Skills — Competent

- C
- Python
- Java

Microsoft Suite — Proficient

- MS Word
- MS Excel
- Power Point Presentation

Certificates

- Cloud Computing [↗](#)
- AWS Academy Graduate - AWS Academy Cloud Foundations [↗](#)
- Google Data Analytics [↗](#)
- Prompt Engineering For Chat GPT [↗](#)
- Machine Learning with Python: A Practical Introduction [↗](#)

Publications

2023/12/29 **Air Quality Prediction Using Prediction Algorithms** [↗](#)
Dhulipudi Varsha Sri Lakshmi

Positions and Responsibilities

2024 **Head of the Registration Committee for StepCone 2024**
Rajam

Interests

- Exploring new technologies
- Learning about current AI tools
