## Education

---

**Bachelor of Technology in Information Technology(Honors)** 2021 – 2025  
GMR Institute Of Technology Rajam, India  
CGPA: 8.8

**Board of Intermediate Education : MPC** 2019 – 2021  
Narayan Junior College Srikakulam, India  
Grade Points : 9.7

**10th Board : SSC** 2018 – 2019  
Narayana Group Of Schools Srikakulam, India  
Grade Points : 10

## Experience

---

**Windchill Developer Trainee** 12/2025 – Present  
Devahuthi Solutions Pvt.Ltd Hyderabad, India

- Trained in PTC Windchill PLM customization and development.
- Worked on Windchill PLM customization, including Type & Attribute Management, OIR configuration, workflow customization, and lifecycle management.
- Developed and modified custom attributes, UI components, and business rules using Java, JSP, and XML.
- Performed testing, debugging, and support for Windchill development tasks.

**Front-end Developer Intern** 06/2025 – 11/2025  
Nexa Tech Solutions Hyderabad, India

- Developed and maintained responsive web applications using React.js, HTML, CSS, and JavaScript.
- Implemented user interface components and enhanced website functionality based on project requirements.
- Worked on front-end development, API integration, and performance optimization.
- Participated in testing, debugging, and deployment of web applications.

**Full Semester Internship** 12/2024 – 04/2025  
Joora Drones Visakhapatnam, India

- Contributed to web development, machine learning by developing and optimizing web applications, implementing ML models, and assisting with project-related tasks.
- Assisted in various project-related activities, contributing to successful project deliveries within the team.

**Summer Internship** 07/2023 – 08/2023  
Hashtek Solutions Visakhapatnam, India

- Completed a summer internship specializing in cloud computing with a focus on Amazon Web Services (AWS).

- Acquired hands-on experience in deploying and managing AWS cloud infrastructure, utilizing services such as EC2, S3, Lambda, and RDS.

## Skills

---

### CS Core

- Data Structures and Algorithms
- Database Management System
- Object Oriented Programming

### Programming Skills

- C
- Python
- Java

### Web Programming Skills

- HTML
- CSS
- SQL
- REACT.JS

### Technologies

- PTC Windchill
- JSP
- XML
- OIR
- Workflow Management
- Lifecycle Mangement

## Projects

---

### Event Stream: Real-Time Web-Based Event Management

2024

Designed an event management platform featuring event scheduling, user management, feedback collection, and secure payment processing to streamline operations.

### BookNest: A Web-Enabled Machine Learning Framework for Personalized Book Recommendations

2024

Implemented sentiment analysis using machine learning techniques like Naïve Bayes and Support Vector Machine.

### Pinterest Clone

2024

(Front-end)

The Pinterest Clone using React.js project involves developing a visually engaging platform that mimics Pinterest's core functionalities, allowing users to browse, search, and save collections of images and inspirations.

### Quiz

2023

The Quiz Application using React.js project involves creating a dynamic and interactive quiz platform that allows users to test their knowledge through a series of questions with real-time feedback.

### Light and dark themed Calculator

2023

The Light and Dark Themed Calculator using React.js project involves building a functional calculator with switchable light and dark themes, enhancing visual comfort for users.

## Certificates
